

AMENDED  
APPLICATION FOR PERMIT

Nº 48833

TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office ---FEB-11-1985--- NEW PRIORITY DATE: MAY 20 1992

Returned to applicant for correction MAR 7 1985

Corrected application filed APR 30 1985

Map filed APR 30 1985

The applicant Dan D. & Mary Mackedie Wright

P.O. Box 54, of Wellington,  
Street and No. or P.O. Box No. City or Town

Nevada 89444, hereby make application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.)

1. The source of the proposed appropriation is Underground  
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 0.25 second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet

3. The water to be used for Commercial (Hot House, Spa)  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated

(b) Stockwater, state number and kinds of animals to be watered

(c) Other use (describe fully under "No. 12. Remarks")

(d) Power:

(1) Horsepower developed

(2) Point of return of water to stream

5. The water is to be diverted from its source at the following point SE $\frac{1}{4}$  SE $\frac{1}{4}$  Section 2, T.10N.,  
Describe as being within a 40-acre subdivision of public  
R.23E, M.D.B. & M. or at a point from which the SE corner of Section 2,  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.  
T.10N., R.23E, Bears S 48°54'00" E A distance of 1545 feet.

6. Place of use SE $\frac{1}{4}$  SE $\frac{1}{4}$ , Sec. 2, T.10N., R.23E, M.D.B. & M. (A Portion)  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

7. Use will begin about Jan 1 and end about Dec 31, of each year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) Existing well pump and  
State manner in which water is to be diverted, i.e. diversion structure, ditches and  
distribution system  
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works \$20,000

10. Estimated time required to construct works 2 Years  
If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use 5 Years

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

An existing hot water well will be used to supply a green house,  
fish pond, and health spa. Estimated total annual consumption will  
be 45 acre - feet

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

The production well must be constructed so as to prevent contamination of fresh water zones. This permit is issued subject to the conditions that only geothermal fluids are to be diverted and used beneficially and that fresh, cold waters are not to be diverted.

(CONTINUED ON Page 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.25 cubic feet per second, but not to exceed 45 acre-  
feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before December 31, 1987

Proof of completion of work shall be filed on or before January 31, 1988

Application of water to beneficial use shall be made on or before December 31, 1989

Proof of the application of water to beneficial use shall be filed on or before January 31, 1990

Map in support of proof of beneficial use shall be filed on or before \_\_\_\_\_

Completion of work filed JAN 08 1997 IN TESTIMONY WHEREOF, I PETER G. MORROS

Proof of beneficial use filed \_\_\_\_\_ State Engineer of Nevada, have hereunto set my hand and the seal of  
 my office, this 31st day of December

(PERMIT TERMS CONTINUED)

The production well is to be cemented from the producing levels to the surface to protect fresh water zones.
